Joyal Jomon

SUMMARY

Motivated and detail-oriented aspiring developer with a strong foundation in front-end technologies, including React.js, Bootstrap, and Tailwind CSS. Currently expanding expertise in back-end development with Node.js and Express.js. Proficient in Git for version control and skilled in building responsive user interfaces.

Passionate about leveraging technology to create seamless web experiences and eager to contribute to innovative projects. Seeking a developer role to apply technical skills and grow within a collaborative team environment.

EXPERIENCE

ANJ America — Full Stack Developer | Intern - August 2024- present

- Built responsive web applications using React.js, focusing on modern UI/UX design principles.
- Gained hands-on experience with Material-UI and Tailwind CSS for creating visually appealing and functional interfaces.
- Explored backend development basics with the MERN stack, including Node.js, Express.js, and MongoDB.
- Started learning and working with Next.js for building server-rendered React applications.
- Skilled in creating fully responsive designs, ensuring seamless user experiences across devices.

SKILLS

Fronend : React.js, Next.js, HTML, CSS, Tailwind CSS, Material UI, Bootstrap.

Backend : MongoDB, Express, React.js, Node.js

Tools : Git, Github Figma, Postman.

PROJECT

ANJ website

- Developed and implemented reusable UI components to ensure a seamless user experience.
- Collaborated with the team to enhance the design and performance of the user interface.
- Contributed to improving the overall visual consistency of the application.
- Utilized Next.js and Tailwind CSS.
